*Joey, and Jayden*

# *What we Will be Talking About*

In this presentation we will be talking about the parts of a blimp, where the blimp was created, how the idea of a Blimp was started, and how the blimp is used today! Find more about blimps now!

# *How The Idea Of The Blimp Was Started*

After the invention of the hot air balloon in 1783, a French officer named Meusnier envisioned an airship that utilized the design of the hot air balloon, but was able to be navigated.

# *Who Invented The Blimp*

So in the year 1783, there were two French Brothers (Jacques Etienne and Joseph Michel Montgolfier) created the hot air balloon and actually sent the first one ever 6000 ft (1800m) in the air which is incredible to hear in the 1700's!

## *Great Blimp Book*

We recommend this book (Aerospace Balloons) because it gives you great facts about Blimps, and you can learn even more about Blimps in this awesome book. You can also learn about other airships that will blow your mind!

This book can be found at most public library for example the sussex county main library:

<https://sussexcountylibrary.org/>

# *Blimp Advertising*

Have you ever gone to a football game or baseball game and saw a blimp hovering the field. That is one of the major for blimps and we are going to talk about it.

- Blimp advertisements can cost from \$500,000 - \$5,000,000.
- Anyone can advertise on a blimp.
- Advertising is one of the main reasons why we use blimps today.
